AC/DC 225W Enclosed Switching Power Supply MORNSUN®

LOF225-20Bxx-C Series

EN60335-1

ES60101-1 EN60101-1

EN61558-1

FEATURES

- Input voltage range: 85 264VAC/120 370VDC
- Operating ambient temperature range: -40° C to $+70^{\circ}$ C
- **Active PFC**
- High I/O isolation test voltage up to 4000VAC
- Operating altitude up to 5000m
- Very low leakage current < 0.1mA
- Stand-by power consumption 0.5W Typ.
- The base plate with conformal coating
- Output short circuit, over-current, over-voltage, over-temperature protection
- Suitable for BF application
- Installing in system of Safety Class I/II is available

LOF225-20Bxx-C series is one of Mornsun's enclosed AC-DC switching power supply and suitable for all kinds of BF type (be accessible to patients) medical system equipment. It features universal AC input and at the same time accepts DC input voltage, cost-effective, high efficiency, high reliability and double or reinforced insulation. These converters offer excellent EMC and safety performance, which meet IEC/EN/UL62368, GB4943, IEC/EN60335, IEC/EN61558, IEC/EN/ES60601 standards and they are widely used in areas of industrial, LED, street light control, electricity, security, telecommunications, smart home, medical, etc.

Notes: 1.*Under any conditions, the total power of the product should not exceed the rated power of 225w and the output current should not exceed the rated output current;

2.*LOF open frame series is also available, named LOF225-20Bxx.

Notes: 1. *Output voltage accuracy: including the setting error, line regulation, load regulation.;

^{3. *}When the product works at light load (≤15% IO), in order to improve the efficiency to reach at green working mode, the value of ripple and noise will be double;

4	1. *For all the above test items, please refer to our company standard "AC-DC Black Box Test Specification" for specific test specifications and methods.

Note: 1.*The power supply should be considered as a part of the components in the system. All EMC performance are been tested on a metal plate with a thickness of 1mm and a length of 360mm x 360mm. The power supply must be combined with the terminal equipment for electromagnetic compatibility

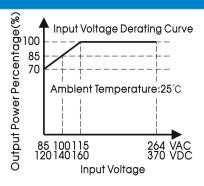

^{2.*}Category I products with PE (which must be connected), category II products without PE.

AC/DC 225W Enclosed Switching Power Supply MORNSUN® LOF225-20Bxx-C Series

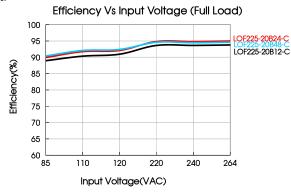

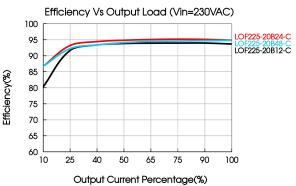

Product Characteristic Curve

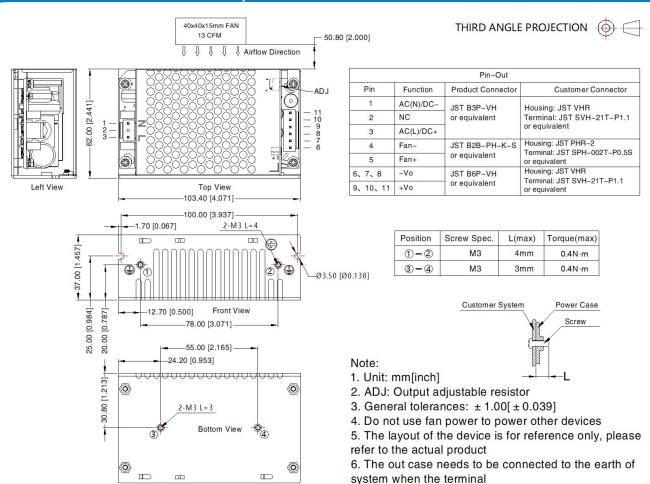

Note: With an AC input voltage between 85-115VAC and a DC input between 120-160VDC the output power must be derated as per the temperature derating curves

Dimensions and Recommended Layout

AC/DC 225W Enclosed Switching Power Supply LOF225-20Bxx-C Series

Note:

- 1. For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58220153;
- 2. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75% RH with nominal input voltage and rated output load;
- 3. All index testing methods in this datasheet are based on our company corporate standards;
- 4. In order to improve the efficiency at high input voltage, there will be audible noise generated, but it does not affect product performance and reliability;
- 5. We can provide product customization service, please contact our technicians directly for specific information;
- 6. Products are related to laws and regulations: see "Features" and "EMC";
- The out case needs to be connected to PE () of system when the terminal equipment in operating;
- 8. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units;
- CAUTION: Double pole, neutral fusing. Disconnect mains before servicing."/"ATTENTION: Double pôle/fusible sur le neutre. Débrancher lalimentation avant lentretien;
- 10. The power supply is considered a component which will be installed into a terminal equipment. All EMC tests should be confirmed with the final equipment. Please consult our FAE for EMC test operation instructions.
