

2W isolated DC-DC converter
Fixed input voltage, unregulated single output

FEATURES

- Continuous short-circuit protection
- No-load input current as low as 8mA
- High efficiency up to 85%
- Compact SMD package
- I/O isolation test voltage 1.5k VDC
- Industry standard pin-out
- EN62368 approved

B_XT-2WR3 series are designed for use in distributed power supply systems and especially suitable in applications such as pure digital circuits, low frequency analog circuits, relay-driven circuits and data switching circuits.

| Selection 6 | Selection Guide | | | | | |

Design Reference

1. Typical application

Input and/or output ripple can be further reduced, by connecting a filter capacitor from the input and/or output terminals to ground as shown in Fig.3.

Choosing suitable filter capacitor values is very important for a smooth operation of the modules, particularly to avoid start-up problems caused by capacitor values that are too high. For recommended input and output capacitor values refer to Table 1.

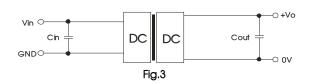

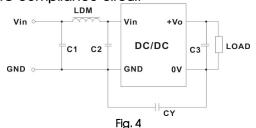

Table 1: Recommended input and output capacitor values Vin Cin Vo Cout 12VDC 5VDC 2.2µF/25V 10µF/10V 15VDC 1µF/25V 9VDC 2.2µF/25V 24VDC 1µF/50V 12VDC 2.2µF/25V 15VDC 1µF/25V 24VDC 0.47µF/50V

Notes:

- For additional information on Product Packaging please refer to <u>www.mornsun-power.com</u>. Tube Packaging bag number: 58210024, Roll Packaging bag number: 58200054;
- 2. If the product is not operated within the required load range, the product performance cannot be guaranteed to comply with all parameters in the datasheet;
- 3. The maximum capacitive load offered were tested at input voltage range and full load;
- Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with nominal input voltage and rated output load;
- 5. All index testing methods in this datasheet are based on our company corporate standards;
- 6. We can provide product customization service, please contact our technicians directly for specific information;
- Products are related to laws and regulations: see "Features" and "EMC";
- 8. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
